

KORORĀ / LITTLE PENGUIN

- Native to New Zealand
- Height: around 25 cm
- Weight: 1kg
- Speed: swim up to 6km per hour
- Predators: animals like dogs, cats, ferrets and stoats
- Activities: Day time fishing at sea. At night they come in from the sea and back to their nests
- They live in different coastal places around New Zealand (and parts of Australia)
- You can see them at the Oamaru Blue Penguin Colony
- Visit the Department of Conservation website to learn more
